About BEC (Systems Integration) Ltd

BEC (Systems Integration) Ltd has been successful in providing eSmart® solutions to a wide variety of businesses within the Global Supply Chain for over 20 years.

BEC's dedicated focus is to provide businesses with automated solutions that increase:

PROFITABILITY - PRODUCTIVITY – ACCURACY – EFFICIENCY – COMPETITIVENESS - FAST ROI

BEC prides itself on delivering high quality solutions that enable its customers to recognise their full potential through the deployment of fully automated systems that enhance current business practices.

BEC's consultative approach and strong industry knowledge enables its customers to leverage the latest 'best-of-breed' products, software and services to maximise their output, with minimal disruption to on-going daily routines.

BEC is fully equipped to deliver eSmart® Solutions, services and support within new, existing or legacy ERP, WMS, MRP and IT infrastructures, optimising IT environments whilst working effectively and seamlessly within designated timescales.

ORACLE®

eSmart® Solutions from BEC accommodate:

- Voice Systems
- RF & Batch Mobile Data Capture
- RFID Solutions
- Wireless Networks
- Labelling Conformance
- Machine Control & Integration
- Vision Systems

BEC's innovative services have been competitively deployed within applications such as:

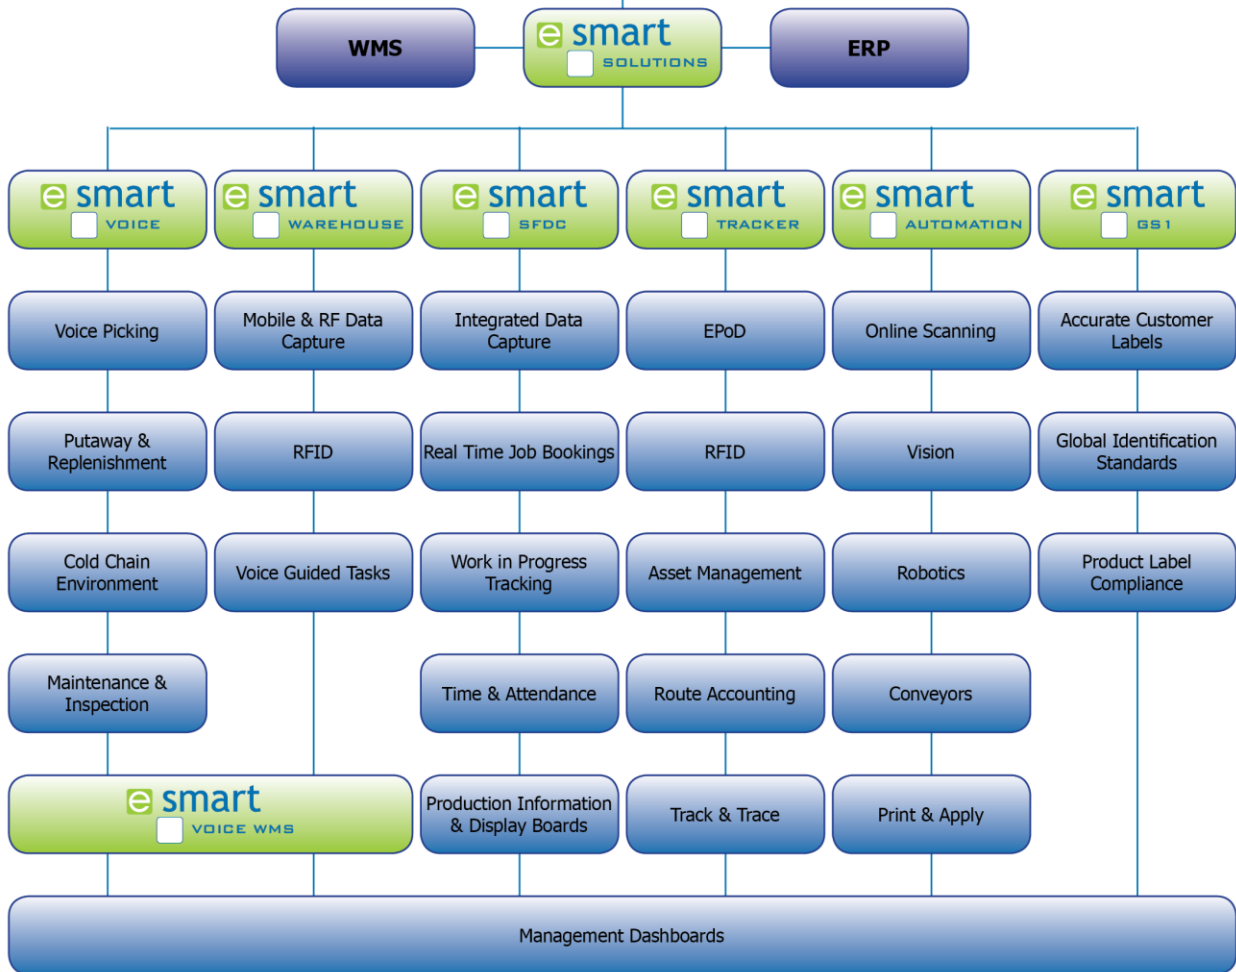

- Distribution
- Shop Floor Data Capture
- Warehouse Management
- Packaging Compliance
- Proof of Delivery

BEC delivers tailored solutions to challenge and maximise its customers' competitiveness, working directly with them from initial analysis of business processes and feasibility study, through to design, implementation, training and after sales support.

BEC's expertise is driven by a constant focus on the developments within its customers' markets, and is dedicated to provide its customers with a real competitive edge as a direct result of the solutions that are implemented.
